

### Safety-Floor Antislip All Purpose (P60)

**Safety-Floor Antislip All purpose P60** is a PVC free pressure sensitive antislip tape with high wear, good tear resistance and outstanding properties in respect of fires.

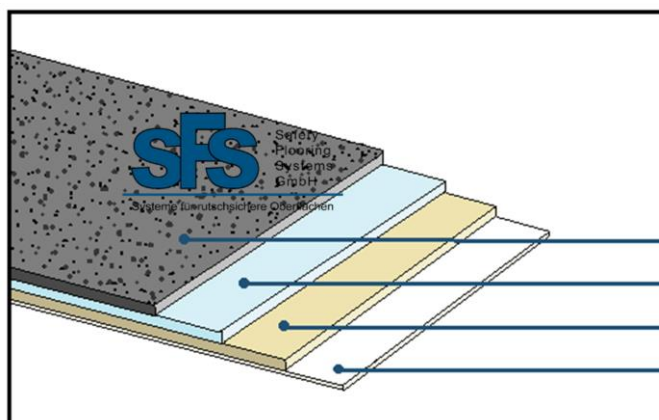

#### Product Description

It is suitable for high traffic application i.e. stairs, ramps, machines, utility vehicles as well as public transportation. Due to its stable polyester backing with silicon carbide bonding in heavy duty resin the product is comparable more stable and equipped with higher dimensional stability than low cost products based on PVC backing. Safety-Floor Antislip All Purpose can be installed on all even surfaces. On porous surfaces as well as in outside areas usage of a primer is recommended.

#### Product Advantages

- PVC-free.
- Dimensionally stable and wear-resistant because of PET base material.
- High anti-slip effect (R13).
- Outstanding fire characteristics.

#### Product Structure

- Epoxydharzgebundenes Siliciumcarbid, Körnung P60
- Reißfester Polyesterträger
- Haftklebstoff, modifiziertes Acrylat
- Papierliner

### Technical Data

Colours	Black (RAL 9004), Yellow (RAL 1003)
Material	Silicon carbide bonded in heavy duty resin on polyester backing with modified acrylat adhesive, PVC-free
Grain sizes	P 60
Thickness (without paper)	Approx. 0,75 mm
Weight	Approx. 720 g/m <sup>2</sup>
Service temperature	- 40 bis +80 °C
UV-resistance	good
Slip-resistance DIN 51130	R13
Adhesion i.A. DIN EN 1939	Approx. 35 - 40 N / 25 mm ( stainless steel, 180°, T=23°C)
Dimensional tolerance class i.A. DIN ISO 2768	Class f (precise)
Fire classification DIN EN-45545-2, R10 for floors	HL 3
